KABETE KICKS OFF CLEAN-UP EXERCISE

Kabete Treatment Plant staff pose for a group photo after end of the environmental clean-up exercise.

Kabete Treatment Plant has launched an environmental clean-up initiative set to be carried out every second Wednesday of the month.

The initiative dubbed “**Kabete Environment Day**” and whose slogan is, “**My Environment ,My Concern**” aims to raise environmental consciousness, promote team spirit and cohesiveness amongst staff.

Kabete Treatment Works Coordinator ,Peter Wachira ,led the exercise saying the monthly drive will ensure a cleaner and healthier environment within the facility.

“I want to thank all the staff of Kabete Treatment Works for embracing the initiative that seeks to promote and encourage environmental awareness and hygiene.” He said.

Kabete Treatment Works is one of the four water treatment facilities operated by the Company. It treats water from Ruiru Dam to conform to quality and safety standards as set out by the Kenya Bureau of Standards (KEBS) and World Health Organization (WHO).
