PRESS RELEASE **WATER SUPPLY INTERRUPTION – PARTS OF NAIROBI**

Nairobi City Water and Sewerage Company Ltd. would like to inform its esteemed customers of a service shut down that will interrupt water supply in parts of the City due to vandalism of the Sasumua dam water treatment pipeline to Kabete Water Works at Kanunga area near Nazareth hospital in Kiambu on the night of 27th August 2024.

In this regard, our engineers have moved to site and repairs have commenced immediately. The repairs are expected to take **24 hrs** from **10.00am** today **28 august 2024**. The supply will be reinstated by **29 August 2024** at **12pm**. Sasumua dam water pipeline was commissioned in 1956 covering a length of 56km and bring 61,000m³/day of water to Kabete reservoir.

In order to reduce the impact of water supply reduction to the west of Uhuru highway, NCWSC shall rationalize the water supply from Ngethu to Gigiri reservoirs with a view of increasing pumping more water from Gigiri to Kabete Water Reservoirs. We shall also alleviate the water supply fail by supplying water to schools, hospitals among other public institutions by water tankers.

The following areas will be affected by the supply fail:

- Areas along Limuru road: Parklands, Ngara area, Aga Khan hospital, University of Nairobi - School of Law and City Park Area, Gigiri, United Nation- Gigiri, Muthaiga
- Areas along Naivasha road and Kikuyu Road, Kawangware, Riruta/Satellite, Uthiru, Ndwaru Road,
- Area along James Gichuru road, Langata road and Waiyaki way, Riverside, Westlands, Lavington, Kilimani, Kileleshwa,
- Estates along Lang'ata Road: Madaraka, Karen, Lang'ata and Kibra, parts of South C Estates

We appeal to our customers for patience and urge them to use their available water sparingly as we work towards restoring the water supply.

Any inconvenience is highly regretted.

Managing Director
